CurePlus Blood Bank Website Audit & Improvement Report

Website: www.cureplusbloodbank.com

1. Social Media Links Not Working : FaceBook

The social media icons/buttons on the website are either not functioning correctly, linked incorrectly, or do not redirect users to the official CurePlus Blood Bank social media pages.

2. FAQ Menu Label

Current Observation

The navigation menu currently displays **"faq"** in lowercase.

Recommendation

Change the menu label from **"faq"** to **"FAQs"** to maintain proper capitalization and improve readability and professionalism across the website.

3. Contact Number Formatting

Current Observation

The website currently displays the landline number as **+91 08214506445**. Since this is a landline number, including the country code (+91) is unnecessary for local users and makes the contact information appear less clear.

Recommendation

Update the contact number to the standard Indian landline format:

Phone: 0821 450 6445

This format is more readable, follows standard formatting conventions, and is easier for visitors to recognize and dial.

4. Add YouTube Social Media Link

Current Observation

The website currently does not include a YouTube icon or link in the social media section. As a result, visitors cannot access the official CurePlus Blood Center YouTube channel directly from the website.

Recommendation

Add a YouTube social media icon in the website header and footer, alongside the existing social media icons. Link it to the official CurePlus Blood Center YouTube channel:

YouTube: https://youtube.com/@cureplusbloodcenter?si=N1pNVVFUtHL1NX54

5. Update "Our Stories & Highlights" Section

Current Observation

The **"Our Stories & Highlights"** section currently displays older updates and does not reflect the latest activities, awareness programs, blood donation camps, events, or achievements of CurePlus Blood Center.

6. Add Google Maps Location

Current Observation

The website does not prominently display the CurePlus Blood Center location using an embedded Google Map. This makes it less convenient for visitors to find the blood center and navigate to the facility.

Recommendation

Add an embedded Google Maps section on the **Contact Us** page and website footer showing the exact location of the CurePlus Blood Center.

CurePlus Blood Bank Team :

1. Dr. Sini Arjun – Medical Officer
2. Capt. Raghu M. Das – Counsellor
3. Srinivasa C– Social Welfare Officer
